

To Whom It May Concern:

I am writing this to attest to the fantastic services offered by Kathy & Anita and their company Lifetime Liquidations. I am a Navy wife and a stay at home mother. I have an active 3yr. old and I was in an awkward position of trying to handle my aunt's estate and a family from a long distance.

My Aunt passed away suddenly and unexpectedly without any instructions on how to handle her affairs. My aunt lived in the same home for 30 yrs and enjoyed her shopping trips very much. **SHE KEPT EVERYTHING!!** The state of her home and the sheer amount of work it would take to remove everything was just too overwhelming. My brother and I spent a panicked week trying to sort papers, haul trash to the dump, and to find charitable organizations to make donations without any luck.

In my searching I came across Kathy and Lifetime Liquidations. There are no words to describe the sense of relief I had when Kathy said she could help and agreed to this enormous undertaking ! We had a professional meeting during which Kathy walked me through the whole process. We took care of some paperwork and I gave Kathy the keys to the house. She said she would organize and handle everything from there- and she did just that!! I was able to walk away without a worry.

My aunt's home and possessions were handled with care and respect and a great burden was lifted off of my shoulders. The proceeds of the estate sale were more than double my expectations. But more important to me, when Lifetime Liquidations was done, the house was swept clean and ready to be put on the market for sell.

If you ever find yourself in a similar position, Kathy & Anita and their company Lifetime Liquidations, is the way to go!!!!!!!!!!!!

Thanks  
Tina Murphy
