- Responsiveness:
- Negotiation skills:

I was selling a second home, which involved not only selling the house, but disposing of the furniture and the miscellaneous debris of many years. Kathy Baldrige took care of every detail - arranged for the things I wanted to keep to be moved to my primary home, arranged for the things my children wanted to be transferred to them, had necessary repairs to the home taken care of, and in short took all of the problems of moving out of my hands. In other words, she did exactly what she said she would do. I could not have been more pleased, and would gladly recommend her to anyone.
